

## About The Test

This is a test that helps you determine you personality type code. Your personality type code determines what behaviour cluster do you possess and how does your cognition works, it helps you figure out the strengths and weaknesses and the reason for them. This test is based on Myers Briggs Type Indicator. The theory used in this test is reliable and comes from researchers like John Beebe, Linda Berens and Dario Nardi

Start The Test

## Test Guidelines

- Answer Honestly for what you are and not what you wanna be.
- Don't take more than 30 seconds on a question and less that 5.
- Rate yourself based on what you have preferred throughout your life and not what you do sometimes.
- Ratings are simple: 1 = Never ; 2= Mostly No ; 3 = Neutral ; 4 = Mostly Yes ; 5 = Always

Do you prefer to go out in the rain and kill people?
